PETITION UNDER 37 CFR 1.181 TO WITHDRAW THE HOLDING OF ABANDONMENT

Mail Stop: Petition
Commissioner for Patents
PO Box 1450
Alexandria, VA 22313-1450

Sir:

The Office issued a Notice of Abandonment on July 27, 2011 asserting as a basis of the Abandonment that a reply to the Office Action mailed December 8, 2010, and due on March 8, 2011, was not received.

Attached is a Declaration of Joseph Berry, the docketing manager at Staas & Halsey LLP, along with a copy of the computer system based daily incoming docket report ("PTO Mail Received") of the master docket records of the firm showing all incoming mail which has a USPTO mailing date of December 8, 2010, a copy of the master data center (mdc) docketing software master docket record docket report ("Patent Data") showing the history of the above-identified application, and copies of master docket record reports ("Staas & Halsey E-Mail Daily Patent") showing all replies docketed for a due date (March 8, 2011) three-months from the mail date of the non-received Office Action, where the non-received Office action would have been entered had it been received. As shown therein, based on a search of the Staas & Halsey docket records, an Office Action was never received by Staas & Halsey or the Office of the undersigned practitioner. The above-described docketing system is sufficiently reliable. In addition, the undersigned practitioner conducted a search of the file jacket of this application and the application contents and the Office Action was not found therein.

Applicants respectfully request that the Notice of Abandonment be withdrawn and a new Office Action be issued.

In view of lack of receipt of the Office Action, it is believed no fee for this Petition is required. However, If there are any fees required, please charge the same to our Deposit Account No. 19-3935.

Respectfully submitted,

STAAS & HALSEY LLP

DECLARATION OF JOSEPH BERRY

Commissioner for Patents
PO Box 1450
Alexandria, VA 22313-1450

Sir:

I, Joseph Berry, declare that:

1. I have been employed in the Docketing Department of the firm of Staas & Halsey LLP since March 15, 2000, and my title is Manager of Docketing Department.
2. I am directly responsible for docketing all incoming USPTO correspondence, and for making note of such correspondence and the due date for any response due, by the Docketing Department.
3. During the regular course of business, the USPTO mail received at Staas & Halsey LLP is first opened and date-stamped, and separated into a specific USPTO received mail file. The USPTO received mail file is then passed directly to me in the Docketing Department. I check each piece of USPTO mail against our Docketing database by docket number and serial number. Any USPTO correspondence which requires a response is docketed in our Docketing database. Only then is the correspondence passed to the responsible attorney. The above-described docketing system is sufficiently reliable.

4. Attached hereto is a copy of an incoming master docket record daily docket report ("PTO Mail Received") based on mailing date showing all incoming mail which has a USPTO mailing date of December 8, 2010 as additional documentary proof of non-receipt of the Office Action in the subject application. Further, attached is a docket report ("Patent Data") showing the history of the above-identified application as well as a master docket record ("Staas & Halsey E-Mail Daily Patent") showing all replies docketed for a date three-months from the mail date of the non-received Office Action (March 8, 2011).

Clearly, there is no record of receipt of an Office Action mailed December 8, 2010 on these docket reports. Among my notations of serial numbers and attorney docket numbers for other USPTO mail having a mail date of December 8, 2010, neither the serial number nor the firm docket number of the above-identified application appears on the pages of the Daily Docket Report.

5. I further declare that all statements made herein of my own knowledge are true, and all statements made herein on information and belief are believed to be true; and further that these statements have been made with the knowledge that willful false statements and the like so made punishable by fine or imprisonment, or both, under the Section 1001 of Title 18 of the United States Code, and that such willful false statement may jeopardize the validity of this application and any patent issuing hereon.
